**Brief Report**

On March 18, 2025, a group discussion was conducted in the B.Sc II class under the guidance of Sindkhede Ma'am on the topic of "Mobile usage in college." The discussion highlighted both the advantages and disadvantages of mobile phone usage in an educational environment. On the positive side, students emphasized how mobile phones can be beneficial for quick access to information, learning apps, and online resources, which enhance their academic performance.

Objective of the activity	Outcome of the activity
1. To encourage students to engage in a discussion about the use of mobile phones in college.	1. Students gained a better understanding of the pros and cons of using mobile phones in college.
2. To help students develop critical thinking skills by analyzing both the advantages and disadvantages of mobile phone usage in an academic setting.	2. The group demonstrated improved public speaking and debating skills by presenting and defending their viewpoints.
2. To promote effective communication and team collaboration as students express their opinions and listen to others.	3. Participants were able to identify ways in which mobile phones can be used constructively for educational purposes.
3. To raise awareness about the potential impacts of mobile phones on academic performance and student well-being.	4. Students became more aware of the distractions and negative effects that excessive mobile phone use can have on academic focus.

On February 22, 2025, a group discussion was conducted in the B.Com II class under the guidance of Mon Ma'am on the topic of "Using Mobile in College." The discussion highlighted both the advantages and disadvantages of mobile phone usage in an educational environment. On the positive side, students emphasized how mobile phones can be beneficial for quick access to information, learning apps, and online resources, which enhance their academic performance.

Objective of the activity	Outcome of the activity
1. To encourage students to engage in a discussion about the use of mobile phones in college. 2. To help students develop critical thinking skills by analyzing both the advantages and disadvantages of mobile phone usage in an academic setting. 2. To promote effective communication and team collaboration as students express their opinions and listen to others. 3. To raise awareness about the potential impacts of mobile phones on academic performance and student well-being.	1. Students gained a better understanding of the pros and cons of using mobile phones in college. 2. The group demonstrated improved public speaking and debating skills by presenting and defending their viewpoint. 3. Participants were able to identify ways in which mobile phones can be used constructively for educational purposes. 4. Students became more aware of the distractions and negative effects that excessive mobile phone use can have on academic focus.

Name of the Department/Committee	Department of Science
Name of the Co-Ordinator	Prof.Bhaskar N.R
Title of the activity	Problem Solving Session
Day, Date and Time of activity	03/03/2025 Time:09.00 A.M
Number of students presented	06

**Brief Report**

Students engaged in problem solving in statistics to understand how to collect, organize, and interpret data. They applied concepts like averages, graphs, and probability to solve practical problems. The activity improved their analytical thinking and accuracy in calculations. Overall, it enhanced their confidence in using statistics for real-life decision-making.

Objective of the activity	Outcomes of the activity
The objective of problem solving in statistics is to help students understand how to collect, organize, and interpret data effectively. It develops logical and analytical thinking skills. It also enables students to apply statistical concepts to real-life situations. Overall, it helps in making accurate, data-based decisions.	Students become able to analyze and interpret data accurately using statistical methods. They develop logical thinking and improve their problem-solving skills. It helps them apply statistics in real-life situations like surveys and decision-making. Overall, they gain confidence in handling data and drawing meaningful conclusions.

### Computation of leverage

Particulars	Shivanand	Anand
Sales	20 00 000	25 00 000
- Variable Cost	10 00 000	7 50 000
Contribution	10 00 000	17 50 000
- Fixed Cost	6 00 000	8 75 000
EBIT	4 00 000	8 75 000
Operating leverage = Contribution/ EBIT	10 00 000 / 4 00 000 = 2.5 Times	17 50 000 / 8 75 000 = 2 Times

Comment: Shivanand Ltd. Has a greater risk as its degree of operating leverage is higher than that of Anand Ltd.

Illustration 14:
